

NON-INVASIVE HEMOGLOBIN TESTING

Masimo is offering all Montana WIC agencies an inexpensive way to begin monitoring hemoglobin non-invasively.

BUY \$2,000 IN TESTS AND RECEIVE A FREE PRONTO DEVICE (no limit to the number FREE of devices).

TESTS ARE \$1.50 EACH AND THEY NEVER EXPIRE.

200 tests = \$300

400 tests = \$600

1,000 TESTS = \$1,500

ALL SENSORS COME IN ADULT AND PEDIATRIC SIZES.

EXTRA HANDHELD DEVICES ARE \$495 EA.

The Pronto offers these features:

- Improved Participant Satisfaction
 - Reduces painful needle sticks
- Improved Compliance and Retention
- Decreases risk of accidental needle sticks and exposure to blood-borne pathogens.
- Requires no lab consumables or waste disposal. i.e. needles, Sharps containers, alcohol swaps, band aids, cotton balls, etc.
- Reduced noise and stress levels in the office.

Pronto is FDA approved for patients 2 years old and 22lbs or more with accuracy of +/- 1g/dcl within 1 STD.
